❯ PROJECTS

Portfolio Website
A responsive, mobile-first website that displays my work and background.
> Hosted Site: **https://alexander.grattan.me/**

New York Times Movie Review App
React application that displays the Critic's Picks of the *New York Times* using their Movie Review API. Used React Router for links and Sass for styling.
> Hosted Site: **nytcriticpicks.netlify.app** > GitHub Repo: **https://rb.gy/yr2fpx**

Virtual Safari
An interactive and responsive web version of *The Lion King* Bonus DVD game, "Timone and Pumbaa's Virtual Safari Jeep Tour" where the warthog and meerkat's decisions are dictated by the user. The experience was made by editing clips in DaVinci Resolve and using JavaScript to make interaction possible. Designed to work across both desktop and mobile interfaces.
> Hosted Site: **virtualsafari.netlify.app** > GitHub Repo: **https://rb.gy/b6g7z0**

Danny's Subs
React application for a fictitious sub shop using React Router for pagination and GSAP for animations.
> Hosted Site: **dannysubs.netlify.app** > GitHub Repo: **https://rb.gy/bfhogz**

❯ EMPLOYMENT

Jet's Pizza   Pittsburgh, PA
Crew Member   Apr. 2020 to Current
Complete a variety of tasks including prep work, cooking, managing phones, and taking care of orders. Display customer service skills in-person and on the phone by using effective communication and attentiveness.

Robert Morris University   Moon, PA
Webmaster   Oct. 2019 to May 2020
Planned, developed, tested, deployed, and maintained WordPress website for the Colonial Sports Network, a student-run sports news organization. Implement intelligent SEO with Google Search Console and analyze stats with Google Analytics. Worked well independently as the sole webmaster and within a team setting of fellow students.
> **https://colonialsportsnetwork.com/**

❯ VOLUNTEERING

Global Links · *Packaging Volunteer*   Oct. 2019 to Mar. 2020
Pittsburgh, PA
Help package surplus medical supplies to send to impoverished countries.
